Mission

The East Cooper Land Trust is a community-supported organization devoted to conserving natural spaces, thus the quality of life for current and future generations.

Vision

East Cooper Land Trust will be leading the most important and ambitious conservation effort for the East Cooper area. We will:

- Identify and conserve natural spaces of environmental, cultural or historical value.
- Enrich our urban community with natural spaces and preserve the rural character of surrounding coastal communities.
- Collaborate with other organizations to provide natural lands such as parks, gardens and trails for people to enjoy.
- Provide education about the benefits of open space and conservation for all ages.

As a non-profit, non-political organization serving communities between the Cooper and Santee Rivers, we rely on your financial support to sustain and expand our efforts.
